About **Steven Foster**

Steven Foster is a Systems Analyst/ System Services for Connect. He has been with Connect since 2006.

Steven is responsible for the installation, configuration, and maintenance of Connect applications and server systems. He particularly enjoys putting his SQL skills to use in customizing SQL exports and reports.

Prior to working at Connect, Steven was a network administrator for a local manufacturing company.

In his free time, Steven enjoys open source software development including various Apache projects. His other hobbies include practicing various musical instruments, hiking, fishing, and the outdoors.
