Report Builder Reports		
Report	Purpose	Options
Class Assignment Marks Admin	For Default and Custom Setup 1 teachers' classes, the report displays class assignment mark information for individual or multiple teachers' classes in individual or multiple reporting periods; and for Custom Setup 2 teachers' classes, it displays class assignment assessment mark information for individual or multiple teachers' classes in individual or multiple reporting periods.	Teacher(s)* Report Period(s)* Include Hidden Student(s)* Refer to <i>Class Assignment Marks Quick Reference</i> for more options.
Class Progress Standards Based Admin	Displays assignment type averages, assignment assessment marks, and class averages for an individual teacher's class in a reporting period. If you are trying to run a Class Progress Report on a class using traditional grading, please use the Class Progress Report in the Classic Report list.	Teacher* Periods* Refer to <i>Class Progress Standards Based Quick Reference</i> for more options.
Homework and Marks Posted to ParentAccess Admin	Displays assignments and assignment types for a school grouped by teacher and class within a date range with an indication of whether or not marks are posted to the ParentAccess Web site.	School Name* Start Date* End Date* Publish Marks to Web?* Published Assignment to Homework?* Refer to <i>Homework and Marks Posted to Parent Access Quick Reference</i> for more options.
Missing Assignments Standards Based Admin	Displays missing assignment information for individual and multiple teachers' classes in individual and multiple reporting periods. For assignments to be included in this report, teachers must have designated assignments as missing on the Assignment Marks screen. If you are trying to run a Missing Assignment Report on a class using traditional grading, please use the Missing Assignment Report in the Classic Report list.	Teacher(s)* Reporting Periods* Include Hidden Students* Refer to <i>Missing Assignments Standards Based Quick Reference</i> for more options.

Report Builder Reports		
Report	Purpose	Options
Report Card Marks Admin	Provides numerous options for presenting report card information for individual or multiple teachers' class(es). While this report is designed similarly to secondary report cards, it can also be used to view report card grades for elementary classes. For example, you can apply specific filter options to create a report that displays students with grades above or below a grade threshold.	Report Card* Teacher(s)* Reporting Period(s)* Include Hidden Student(s)* Refer to <i>Report Card Marks Quick Reference</i> for more options.
Student Demographics	Provides numerous options for displaying student demographic information for individual or multiple teachers' classes, class groups, or homerooms.	Schools* Refer to <i>Student Demographics Quick Reference</i> for more options.
YTD (Year to Date) Final Grade Admin	Provides numerous options for displaying year to date grade information for students in a teacher's class or class group. The YTD Final Grade Report can only be used on classes where the YTD Grade calculation has been enabled on the report card for the class. This report cannot be used on classes using standards-based grading.	Teacher(s)* Refer to <i>YTD (Year to Date) Final Grade Quick Reference</i> for more options.

Absence Queue	
<p>The Absence Queue lists all the students that have been marked absent or tardy in daily attendance. This screen is used daily to reconcile student absences by adding reason codes, adding notes from parents, recording phone calls to the parents, etc. Student records remain in the Absence Queue until they have been resolved and marked Done.</p>	
Attendance by Student List	
<p>The Attendance by Student List is used to display students and edit attendance codes. When a student does not display in the Absence Queue, an attendance administrator can enter the appropriate code so the student displays in the Absence Queue.</p>	
Search Options	School* Year* Calendar* Student Name Student ID Homeroom/Class Grade Absence Status

View Teacher's Grade Book	
<p>This feature allows a principal to view, but not edit, a teacher's GradeBook.</p>
